July 2023

Dear Friends:

Price Area Trail Hub, Inc. (“PATH”), together with the School District of Phillips, is excited to announce our fundraising efforts to support the construction of a building at the Phillips School Forest located in the Town of Worcester, with an estimated cost of \$500,000. We are off to a good start with a \$20,000 donation from Price Electric Cooperative, and a \$125,000 commitment from the School District, along with many other in-kind contributions.

Our goal is to have a 3,600+/- square foot, multi-functional building to meet the many needs of both the school and community, to be constructed during the summer of 2024.

For the school, it is designed to provide students and teachers with an indoor learning environment, as an extension to the outdoor classroom. For the public utilizing the many trails during daylight hours, it would provide access to indoor bathrooms, a changing area, and water fountain. The entire facility would also be available year-round for rent to community groups, boasting a sizable great room and kitchen area suitable for hosting meetings, celebrations, and outings.

We ask that you thoughtfully consider making a donation to help our efforts. While any amount would be greatly appreciated, we have enclosed a sponsor form highlighting different donor levels and recognition available.

Please join us in this project as we look to impact our school and community for generations to come with this addition to our beautiful school forest. A preliminary rendering of the building design – and additional information about this project – can be found at our website listed above.

Thank you for your consideration! Enclosed is a donation form and envelope for your convenience. Should you have any questions, we would enjoy hearing from you.
